22) Reference : - Dewan's note dated 29th April 1916.

(1) Utilization of Rs. 25,000/- provided in the Civil Works Budget for town planning operations.

1 The amount of Rs.25,000 was transferred to the Department of Public Works Budget on 12th January 1916. Nothing has yet been spent out of this amount but some projects are under preparation as shown in the annexed copy of the Chief Engineer s note separately submitted to the Dewan.

(2) State expenditure on Sanitary Works in rural areas for the past ten years.

2 A statement is annexed showing the amounts spent on Sanitary Works in rural areas during the years ending 1914-15. The total amount spent on these works viz., Extension of village sites, village Improvement works, and sinking of drinking water wells, during the ten years is Rs.1,51,509/- of which as much as Rs.1,33,745 /- was spent in 1914-15.

(3) Scheme of operations for ensuing year.

3 About 2½ lakhs are now allotted for Sanitary Improvement of rural areas as follows :-

One lakh for 3 years for Malnad Improvement from February 1914.

One and half lakhs for drinking water wells from January 1915.

As the Schemes have recently been sanctioned no increase is at present necessary. Hence no programme is submitted.

H.R.

Note. - The Sanitary Commissioner's proposal relates to urban and not rural areas as may be seen from his note and also the D.P.W. projects.

C

6 The Madras Government have sanctioned

a sum of six lakhs in their budget of 1916-17 for Sanitary Improvements in urban areas.

7 The Mysore Local Self Government Scheme now before Council proposes the grant of half capital cost of Sanitary Schemes if the Municipalities can find the other half and the maintenance charges.

8 If the allotment of 3 lakhs now asked for is to be sanctioned the distribution should be made on the recommendation of the Sanitary Board for Sanitary works only.

25 The grant asked for by the Sanitary Commissioner is for the improvement of urban and not rural areas. A provision of Rs.75,000/ is made in the current year's budget for improvement of water-suppl in towns and another of Rs.35,000/ for town-planning operations. The practice which now prevails is to give out of State Funds a grant of one half of the initial cost of water-supply and drainage projects

Office of the Sanitary Commissioner
with the Government of Mysore,

Bangalore dated the 26th February 1916.

Sanitary 28 112-15=1

From

Rao Bahadur Rajakarya Pravina
T.V. Arumugum Mudaliar Esquire,
Sanitary Commissioner with the
Government of His Highness the
Maharaja of Mysore, Bangalore.

To

C.

V.R. Thyagaraja Iyer Esquire, M.A.,
Secretary to the Government of His
Highness the Maharaja of Mysore,
Revenue Dept., in charge of the
General Department, Bangalore.

Sir,

In connection with the budget estimates for 1916-17, I have the honor to invite reference to the remarks made by me in my memorandum on the re-organisation of the Public Health Department under " Sanitary Programmes " and to recommend that adequate provision may be made for grants-in-aid to Municipalities, to be allotted, in each case under the sanction of Government, on the recommendation of the Sanitary Board. I find that a sum of Rs. 50,000 is shown in the current year's budget under 26 C. Miscellaneous (13) contributions - for improvement of water supply in towns. But considering the variety and magnitude of sanitary improvements to be effected there is no reason why encouragement should be restricted to only one branch viz. improvement of water supply. I am of opinion that a grant of at least Rs. 2,00,000 needs to be sanctioned tentatively to begin with, the allotments being regulated by the same principle as that obtaining in the case of grants-in-aid to villages - viz. that the local body should find half the cost of the proposed improvement in order that the other half may be contributed

GPB—50,000—26-1-15
